Note:  
DAC areas are based on US Census American Community Survey 2010-2014 data for a Median Household Income (MHI) of \$49,191 or less (California MHI for 2010-2014 = \$61,489; 80% = \$49,191).

EDAs are based on two or more of the following:  
 - US Census American Community Survey 2010-2014 data for a MHI of \$52,266 or less (85% of California MHI)  
 - California Employment Development Department unemployment rate of 2% or more of the statewide average in 2015 (California unemployment rate for 2015 = 6.2%)  
 - Population of less than or equal to 20,000 or 100 persons per square mile.
